Lying, manipulating, and cheating in USA elections have become increasingly of concern to its citizens. Some believe they are morally justified to lie, cheat, or steal if it is for an end result they consider "good" for their cause. They assume it's morally ok to do bad for the sake of good.

This ideology has infiltrated the Justice System where they selectively enforce the law against their political rivals while protecting members within their party. This lack of fairness and justice has caused significant distrust within the country, especially in elections.

The following is evidence collected for the 2024 election from social media sources that may reveal criminal activities. Will this be fairly investigated and justly prosecuted?

DOJ ONCE APPROVED VIRGINIA LAW TO REMOVE NONCITIZENS FROM VOTER ROLLS BUT ARE NOW SUING GOV. YOUNGKIN OVER IT

by OLIVIA RONDEAU 21 Oct 2024 14

Virginia is being sued by the Department of Justice (DOJ) over Republican Gov. Glenn Youngkin's enforcement of a measure aimed at culling noncitizens from the voter rolls — a law introduced by former Gov. Tim Kaine (D), which the DOJ previously approved.

The DOJ is suing to keep illegal votes and to keep the election unfair. Ask yourself why they would be doing this and whether this reveals a political agenda or a fair system.

No, counting votes for several days is not a sign of fraud.

While the presidential winner was once usually known on election night, closer races and more mail voting have made it harder to make the call as quickly.

Reminder that Trump currently has a sentencing date of November 26 on the "34 felony convictions."

So if he loses, the plan is to jail him quickly so that he isn't in a position to challenge any irregularities.

So Tuesday is very important. He's gotta win, you gotta vote.

Remember how the current Biden administration went after their political rival like past communist dictators did? They raided President Trump's house, harassed his family, smeared him in the media, censored and cancelled his social media accounts like Twitter, leaked fake stories about him, arrested him, impeached him, denied security for him despite threats, received multiple lawsuits from state DAs, and many investigation by democrat congress people. No other president has been persecuted like this. They justify it in their minds by claiming he is evil and dangerous etc., but aren't they just following the beginning of the movie "1984" which shows people being brainwashed by a false media narrative?

2) They cheated in 2020 and manufactured 15 million votes.

So, looking at the results, Biden had 81M votes and Trump had 74M votes in the 2020 election. The results for 2024 have Harris at around 65M and Trump at 71M. Where are the other 20M democrats at who didn't vote? Who was sitting this election out and why? I thought voter turnout would be much higher.

Shayne Coplan, 26, was targeted at his Soho home during a dawn raid on Wednesday, sources told the **New York Post**.

The insider blasted the seizure as 'grand political theater at its worst'.

'They could have asked his lawyer for any of these things. Instead, they staged a so-called raid so they can leak it to the media and use it for obvious political reasons,' the source said.

Coplan was reportedly not arrested or given a reason for the raid, but it is thought to be linked to his accurate predictions which outsmarted traditional polls.

According to this, more democrats voted for the senator Ruben Gallego than Kamala Harris, who was on the same ballot. Does anyone truly believe this?

Normally, Presidential candidates get the most votes and the others much less within the same party lines. Kari Lake getting less votes than President Trump, for example, reflects normal voting behavior. This is an enormous anomaly that would normally be associated with criminal fraud. Fulton County Plans to Illegally Accept Ballots

Officials blatantly disregard state law by accepting ballots after the deadline .

(Atlanta)— It has come to our attention that Fulton County election officials are planning to open four election offices this weekend “to accommodate voters seeking to hand-return their absentee ballots.”

This is a blatant violation of Georgia law, subsection (d) of Code Section 21-2-385. O.C.G.A. § 21-2-382 which states “all drop boxes shall be closed when the advance voting period ends.” This must be stopped immediately and those willfully breaking Georgia law should be held accountable.

To make matters worse, the four election office locations are situated in areas of the county that will clearly favor Democrat candidates.

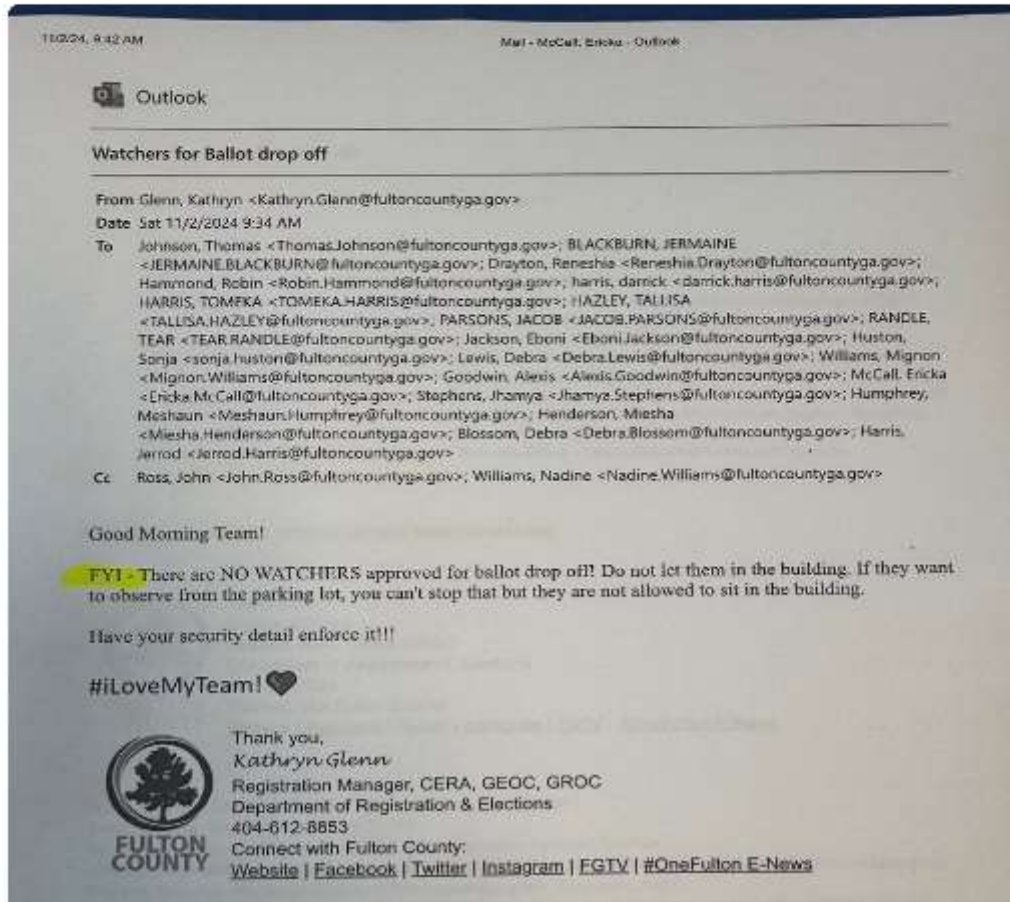

We are calling on state officials to take immediate action to stop this and maintain confidence in Georgia's election integrity.

Anything that adds uncertainty and disorder to the electoral process disserves the public." - Traitorous Crook Robert McBurney

The crook judge also said he's preventing the perfectly legal rule from being implemented because it would take time and resources to train election workers. WHAT THE HECK DO GEORGIANS PAY TAXES FOR THEN?

This is the same judge who also ruled to force election officials across Georgia to certify 2024 election results even if fraud exists. In all my previous posts, I expected McBurney to continue his corruption, but I had no idea he would be citing January 6th in a freakin court ruling. My blood is actually boiling.

We need an immediate appeal of this ridiculous garbage ruling and then, hopefully, a total reversal of this disgusting ruling. I also hope the cowards in the Georgia legislature can find some balls and impeach this fraud already.

The Supreme Court has unfortunately today sided with the Secretary of State of Michigan and Wisconsin, both Democrats, to undermine election integrity and leave my name on the ballot in both those states. It is a purely political move in the hope that folks who would have otherwise voted for Trump will throw away their vote by voting for me instead. Don't let them undermine this election. Don't be fooled. I am off the ballot in every other state I have sought to get off of other than Michigan and Wisconsin. So, if you are in Michigan or Wisconsin, please make sure to vote for Donald Trump — DO NOT VOTE FOR ME. Together we will Make America Healthy Again!

Ann Arbor — A University of Michigan student who is from China and not a U.S. citizen allegedly voted Sunday in Ann Arbor and is being charged with two crimes, six days before a pivotal presidential election.

The filing of the charges was revealed Wednesday in a statement from Michigan Secretary of State Jocelyn Benson's office and the Washtenaw County Prosecutor's office. The press release didn't identify the student, describing him only as "a non-U.S. citizen."

NEW - 500,000 more people are registered to vote in Michigan, than those old enough to vote. Democrat officials say they'll purge over 600,000 "inactive voters" after this election.

Michigan voter roll exceeds eligible pop.

Michigan's voter rolls have swollen since 2018, with more than 8.4 million voters registered in advance of the 2024 election. The U.S. Census estimates there are only 7.9 million people of voting age. The Secretary of State's office says over 600,000 are scheduled for removal after this election.

Lancaster, York, Monroe, and Cambria Counties in Pennsylvania are investigating an alleged voter fraud scheme.

Additional Pennsylvania counties may announce fraud investigations tomorrow.

Mike Mancuso District Attorney

2 days ago · 🌐

Last week, following a regular review of Voter Registration/Mail in Ballot Request forms received in its office, the Monroe County Board of Elections identified approximately 30 irregular forms. Those forms were segregated, and the matter referred to the Monroe County District Attorney for investigation.

Since then the Office of District Attorney has been investigating the referral by the Monroe County Board of Elections. Several of the Voter Registration Applications and Mail in Ballot Request forms have been found to be fraudulent as they were not authorized by the persons named as applicants.

In at least one example, the named applicant is in fact deceased. To date several, of the fraudulent voter registration forms have been traced to a specific person.

A company calling itself "Field and Media Corps" a subsidiary of Fieldcorps, an Arizona based organization, working out of Lancaster County, in turn was responsible for submitting the forms in question to county officials.

The broader investigation continues with reference to Fieldcorp's involvement. Our office is in regular contact and working with investigators from the Attorney General's Office as well as others. A further update will be made in the next day or so.

Anyone with information pertinent to the matter should contact District Attorney Detective Thomas McMahon at (570) 517-3025 TJMcMahon@monroecountypa.gov

Nevada Election Fraud Evidence

Insurrection Barbie @DefiantlyFree · 10h

In Nevada, Arizona, and Wisconsin, more people voted for the Senate race, than the presidential race.

In all three of those states, it looks like the Democrat senator is going to end up winning, even though Donald Trump won the state.

Once all the votes have been counted, each of the Senate candidates will end up doing better than Kamala Harris did in the state. Glaringly so in Arizona.

Split tickets have occurred a total of three or four times in modern political history.

This is the first time it ever happened in three different states in the same election.

The screenshot shows an election results interface. At the top, it lists candidates for President: Donald Trump (Republican, 11 EVs, 1,672,377 votes, 52.3%) and Kamala Harris (Democrat, 0 EVs, 1,489,623 votes, 46.6%). A progress bar indicates 93% expected votes in (Est. remaining 237,000). Below this is a section for the Senate race, labeled "Senate Battleground", with a yellow banner that says "TOO EARLY TO CALL". It lists Ruben Gallego (Democrat, 1,578,061 votes, 50.0%). To the right of the main table, there are three smaller candidate cards for Kamala Harris, each showing 0 EVs, 684,787 votes, and 47.5%, with a progress bar for 99% expected votes in (Est. remaining 7,500). BREAKING: Almost 14,000 mail-in ballots in Nevada currently don't have adequate signatures and will NOT be counted unless they're cured.

This is devastating news for Kamala Harris.

Democrats are already underwater in Nevada's Early Voting. This will make it much worse.

For example, in 2022, 6,000 ballots statewide needing a signature cure were not counted. Nothing is going right for Kamala's camp. They placed all their trust in creating a mail-in voting firewall, but it has dramatically FAILED in every way.

Nevada doesn't stop counting ballots until Friday. That means that after the election, they are still going to count ballots for an entire three days.

Three days where they know exactly how many ballots they need in order to push Kamala Harris over the top.

Why the hell are we allowing states to count ballots three days past the election?

Oh, and they don't even have to be postmarked to be counted.

The Clark mail numbers are very puzzling. Fewer than **5,000** were processed today, bringing the total there to **234,000** ballots, which the Dems continue to win by large margins. The latest dump had the strangest configuration yet with Dems getting half the mail, **Repubs just under 20 percent and indies at 30 percent. Republicans are now third (26 percent to indies (29 percent) and Dems (45 percent) in Clark mail.**

But 234,000 is just over half of the total Clark ballots from 2020. Where is the mail? If it continues at this relatively snail 's pace, whether it is USPS delay or it will simply be way down for another reason, the Dems will need a huge margin with all those indies. Double digits, which seems unlikely. Dems need the volume of Clark mail to increase at the nearly 2-to-1 margins and meet or come close to the 2020 baseline or Trump is going to win Nevada, even if the Dems do well with indies.

Other States' Evidence

According to Backlinko, only 0.44% of Google users visit the second page of search results. Did this voting machine randomize the names or did they have bias against Trump knowing that up to 99.5% may not go past the 1st page?
