

Covid-19 Vaccines: Good or Bad?

Some time has passed since the covid-19 “pandemic” first began. Let’s check in with what people are saying in the media and social media. We are deliberately not showing information from mainstream media sources as many have been proven to have a political and ideological agenda. Some have even received kickbacks from sources which have a financial interest in seeing covid-19 vaccines be used by the masses. But are profits truly being prioritized over public safety? Are the covid-19 vaccines safe or not? Let’s review the evidence and use facts, logic, and discernment to try to identify the truth through the noise...

Data from [John Hopkins COVID-19 Tracker](#) shows that several states with the highest vaccination rates like Maine, New York, and Vermont have the highest increased rate in COVID-19 cases last week.

And the state with the greatest decreased rate in COVID-19 cases was Texas.

Daily new cases per 100k

STATE NAME	7-DAY MOVING AVERAGE	COUNT INCREASE (PAST WEEK)	% INCREASE (PAST WEEK)
Maine	489	3,397	100.00%
New York	5941	37,939	43.13%
Vermont	263	1,520	34.07%
California	9672	65,550	15.28%
Alabama	3125	22,785	14.16%

Ten days after Denmark REMOVED all covid restrictions the number of infections are continuing to plummet.

Cases have now fallen 52%.

Whats going on?

2:20 PM · Sep 21, 2021 · Twitter for Android

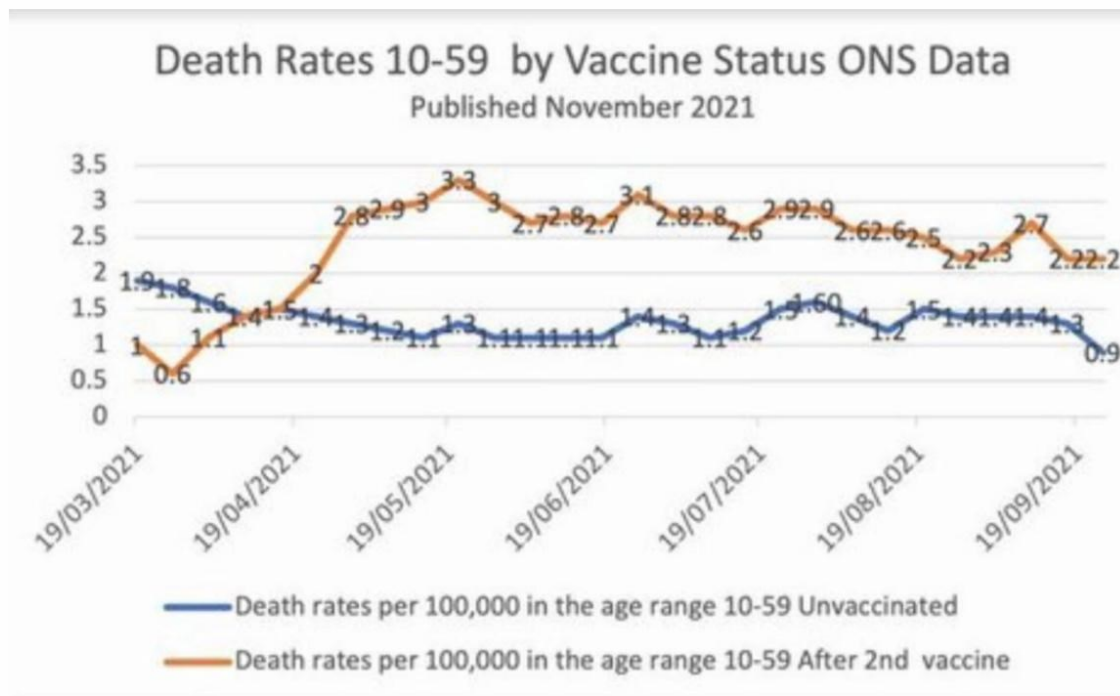

Why would someone
take a third dose of
something that didn't
work the first two times?

The brown line represents weekly deaths from all causes of vaccinated people aged 10-59, per 100,000 people.

The blue line represents weekly deaths from all causes of unvaccinated people per 100,000 in the same age range.

I have checked the underlying dataset myself and this graph is correct. Vaccinated people under 60 are twice as likely to die as unvaccinated people. And overall deaths in Britain are running well above normal.

CDC guidance exacerbates confusion over COVID-19 boosters

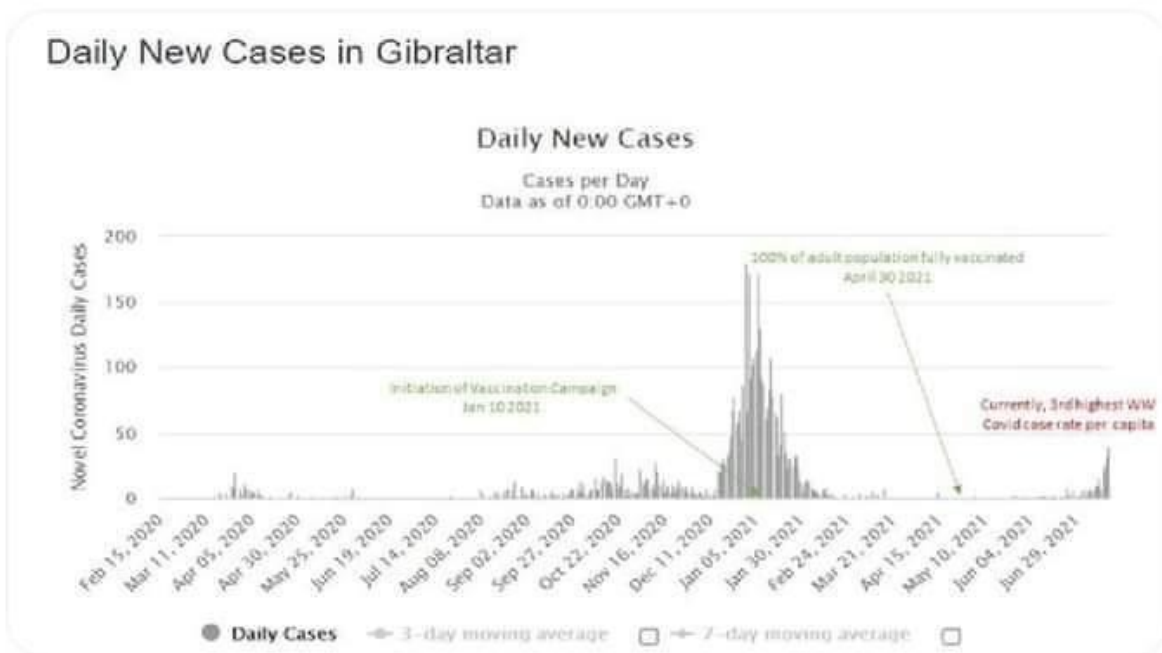

Anjalee Khemlani · Senior Reporter

Fri, September 24, 2021, 12:20 PM · 5 min read

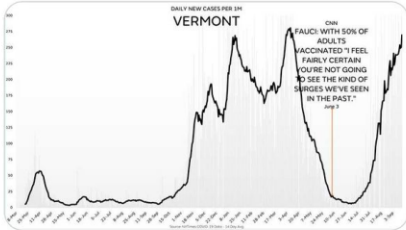

Gibraltar fully vaccinated every eligible citizen by April. Now 2.5 months later, they have the 3rd highest per capita rate of infection on Earth, with 80% of cases in the past two days being vaccinated.

Apparently, 100% vaccination does not lead to zero Covid.

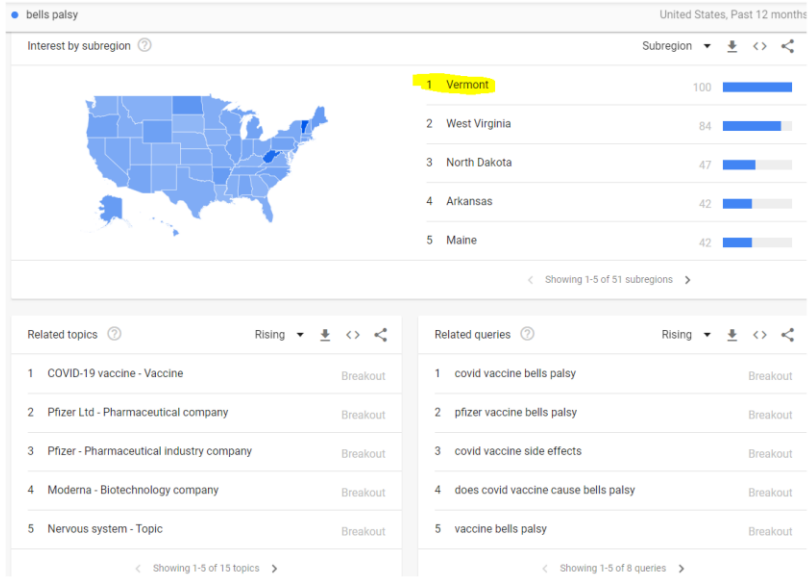

Vermont, with the highest vaccination rate in the country — 88% of adults at least partially vaccinated & 79% fully vaccinated — is about to set a new high in COVID cases, just 3.5 months after Fauci said with 50% of adults vaccinated we wouldn't see significant surges.

Whoops!

VAERS COVID/FLU Vaccine Reported Deaths by Days to Onset All Ages

The first 14 days of deaths from the Covid-19 Vaccine aren't counted as deaths by the vaccine. This is when the vast majority of deaths occur. What could possibly be the motive for changing the reporting to hide the covid-19 vaccine deaths? Is the priority to disclose information and give informed consent or is the priority to accomplish the opposite?

The 36 year old self proclaimed "Queen of the Vaccine" SarahBeth Hartlage died "suddenly" last week.

Dr SarahBeth Hartlage urged people to take Covid vaccines.

She urged them online, in person, and in briefings with Louisville's mayor. She tweeted a picture of herself opening a box of mRNA jabs and said she'd had "a little visit from the Pfizer fairy." She was thrilled when regulators authorized shots for five-year-olds and disappointed when Pfizer postponed its application for six-month-olds.

Cardiologist Who Mocked the Unvaxxed Suddenly Dies in His Sleep After 3rd COVID Jab

GP By [The Gateway Pundit](#) 6 hours ago

A 52-year-old prominent New Brunswick cardiologist suddenly died in his sleep just two weeks after getting his 3rd Covid jab.

Over the summer Dr. Sohrab Lutchmedial attacked "selfish" people who choose not to take the Covid jab.

"For those that won't get the shot for selfish reasons – whatever – I won't cry at their funeral" Dr. Lutchmedial said in a July 2021 tweet.

VAERS - Killer vaccine lots id(...)

05/06/21(Thu)14:26:20 No.320326114

100 KB PNG

Alright I just found some crazy
[redacted] data. The vast majority of
vaccine adverse events
(miscarriage, death, etc) are
caused by a tiny minority of vaccine
lots. See here:

<https://wonder.cdc.gov/controller/saved/D8/D157F050>

Here's the craziest part: the lots are split between
the 50 states. So you [redacted] KNOW it's the lot
that's the problem, not a particular age group or
county.

Out of thousands of lots, these alone cause 20% of
the reactions:

EK5730

EH9899

011J20A

039K20A

026L20A

EK9231

EJ1685

EL1284

037K20A

025L20A

So here's the next question. Why? What makes
these lots so much more harmful? Looking for
some schizo help researching these lot #'s, seeing

Maybe It's Moderna, Maybe It's Menopause

By Annaliese Griffin

Photo: Eva Marie Uzcategui/AFP via Getty Images

A few weeks ago, my exceptionally regular period was so late that I took a pregnancy test — and I had my tubes tied after my second kid.

I've been polling friends and receptive acquaintances about their own periods and, turns out, things are weird. I've heard about super-heavy periods, nonexistent periods, puzzling weight fluctuations, increased acne, and new chin hairs. A friend who rarely gets a period because she has an IUD had breakthrough bleeding. Another called her doctor to discuss perimenopause because her cycle was suddenly so erratic.

My theory: It's a side effect of the COVID-19 vaccine.

 r/CovidVaccinated · Posted by u/GOINGY 1 day ago

Autoimmune Encephalitis after vaccine

Pfizer

I have suffered extreme nausea and dizziness for 9 weeks following the Pfizer vaccine. Over the last week, I started experiencing extreme mood swings. Over the last day, my legs and arms have become very weak, and my gait has been affected. I have been diagnosed with what was thought to be vestibular migraines and We believe I have autoimmune encephalitis, and will start steroid therapy to treat it. Though this tends to have good prognosis with some lingering side effects, I have been reduced to a shell since getting the 2nd Pfizer vaccine. **Cannot get out of bed due to dizziness, extreme nausea, and am now wasting away.** Can only hope the steroids will take affect before further damage is done. Don't know what happens now. Hope I can get back here one day to update you guys.

- Brazil's President will not support vax passports/restrictions
- Denmark lifted restrictions
- Sweden lifted restrictions
- Ireland plans to drop Covid restrictions by Oct. 22

LAST night I took a stroll out to County Park in Paris. At the moment I was in the middle of the park when I was stopped by a young man who was wearing a mask and a hat. He was wearing a mask and a hat. He was wearing a mask and a hat. He was wearing a mask and a hat.

The young man said he was a young man who was wearing a mask and a hat. He was wearing a mask and a hat. He was wearing a mask and a hat. He was wearing a mask and a hat.

It seems like this is France where you can see people who are wearing masks and hats. They are wearing masks and hats. They are wearing masks and hats. They are wearing masks and hats.

Young French have rushed to be jabbed so they can go out at night

Young French people, generally afraid of the idea of being jabbed, have rushed to get vaccine jabs so they can go out at night with their friends.

There is a very good reason why Britain should follow the French example — and also take note of what other European countries are doing — and that is the vaccine rollout.

It's time to punish Britain's 5 million vaccine refuseniks

They put us all at risk of more restrictions, says ANDREW NEIL. So why shouldn't we curb some of THEIR freedoms?

by Andrew Neil

with serious and Covid-related treatment that could stop us from going to work or to school. As long as they can be vaccinated in the process, the nation will remain comparatively immune to the latest variants, meaning more lockdowns, more restrictions on our lives, more job loss, more falling business, less economic growth — all of which will follow the Queen's speech introduction of the so-called Plan B of enhanced restrictions this week.

All right, there is a small number of people who, for medical reasons, cannot be vaccinated. These so-called exempt can be identified and helped with regular testing to make sure they're Covid-free. But for the rest it is simply add-on, to be vaccinated. We all have a responsibility to act in ways that don't put prevent our own health but also that of others.

The evidence from France strongly suggests that if the government see they will pay a price in terms of where they can go and what they can do, then they will think again and rush to be jabbed.

being to do the job with precision but to be able to make sure that the job is done in the best way possible. It is a very important job and it is one that requires a high level of skill and attention to detail.

It would be surprising to see that the government is not taking more steps to ensure that the vaccine rollout is as smooth as possible. It is a very important job and it is one that requires a high level of skill and attention to detail.

Even Germany is considering mandatory vaccination

Even the vaccinated need to be vaccinated. It would give those of us who have been jabbed a little more confidence and for those who have not, more hope.

My hope is that certain African countries will be vaccinated by the government so they can go out at night with their friends.

It would be surprising to see that the government is not taking more steps to ensure that the vaccine rollout is as smooth as possible. It is a very important job and it is one that requires a high level of skill and attention to detail.

It would be surprising to see that the government is not taking more steps to ensure that the vaccine rollout is as smooth as possible. It is a very important job and it is one that requires a high level of skill and attention to detail.

President Biden ✓

@POTUS

The Delta variant is surging, but we have the power to stop it.

Get vaccinated.

I just got my COVID vaccine behind my parent's back and it feels great.

Moderna

I went to a CVS and got it completely free, no questions asked. I feel fine right now, it's been around three hours since I got the vaccine, and I have yet to experience any adverse reactions.

YouTube blocks all anti-vaccine content

Wed, September 29, 2021, 9:26 AM · 1 min read

WASHINGTON (Reuters) -YouTube will block all anti-vaccine content, moving beyond its ban on false information about the COVID vaccines to include content that contains misinformation about other approved vaccines, it said in a blog post on Wednesday.

Examples of content that won't be allowed on YouTube include claims that the flu vaccine causes infertility and that the MMR shot, which protects against measles, mumps, and rubella, can cause autism, according to YouTube's policies.

The online video company owned by Alphabet Inc is also banning channels associated with several prominent anti-vaccine activists including Robert F. Kennedy Jr. and Joseph Mercola, a YouTube spokesperson said.

A press email for Mercola's website said in a statement: "We are united across the world, we will not live in fear, we will stand together and restore our freedoms." Kennedy did not immediately respond to requests for comment.

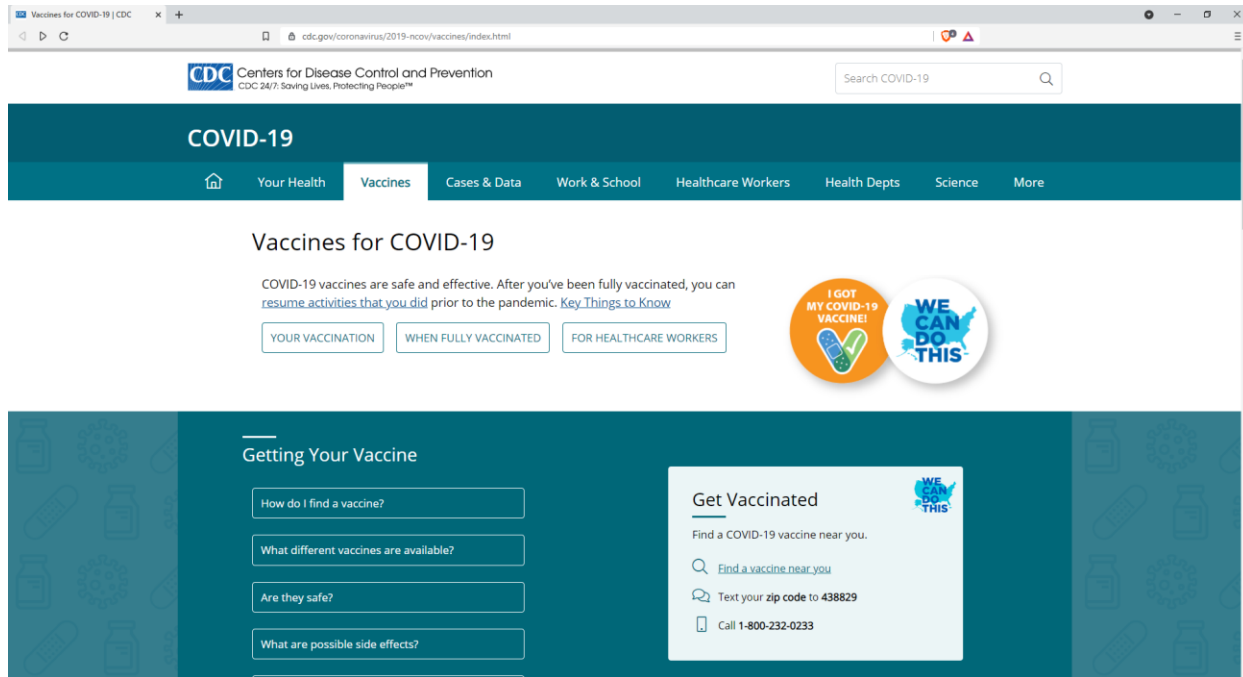

The moves come as YouTube and other tech giants like Facebook Inc. and Twitter Inc. have been criticized for not doing enough to stop the spread of false health information on their sites.

But even as YouTube takes a tougher stance on misinformation, it faces backlash around the world. On Tuesday, Russian state-backed broadcaster RT's German-language channels were deleted from YouTube, as the company said the channels had breached its COVID-19 misinformation policy.

Russia on Wednesday called the move "unprecedented information aggression," and threatened to block YouTube.

(Reporting by Susan Heavey in Washington and Sheila Dang in Dallas; Editing by Mark Porter)

If the vaccine is so effective for everyone, wouldn't there only be positive things to say about it though?
Are they assuming the negative things said aren't true, or do they have another motive to hide the negative remarks?

The CDC claims the covid-19 vaccines are “safe and effective.” If this is true, why do they have web pages on covid-19 vaccine “adverse effects?” Doesn’t the existence of those pages mean that there is risk? And if there is risk, how can the claim be true that it is 100% safe? Does the CDC have a motive for being overly optimistic about a relatively untested injection product? Is it possible they are biased?

Aren't kids in an extremely low risk category for covid-19 in the first place? If most of the deaths are from elderly people, and if no kids have ever died from covid-19, then why the rush to mass-inject them with a relatively untested substance? Is it possible that financial incentives could be influencing people's judgment, putting profits over health?

If you still need a booster after being FULLY vaccinated, and still need to get tested after being FULLY vaccinated, and still need to wear a mask after being FULLY vaccinated, and still get hospitalized after being FULLY vaccinated...

It's probably time you admitted that you have been FULLY conned.

In just the past few weeks,
the CDC suddenly stated what they
wouldn't admit for 2 years:

1. We should have *focused protection* for those with comorbidities.
2. The PCR test is unreliable to determine if you're infected.
3. Dying "with" and dying "from" an infection are *very* different.
4. Cloth masks offer almost no protection.
5. Natural immunity is more effective than a shot.

I called Kevin McCarthy's office asking to make an appointment to talk with the congressman about my blood pressure. They told me that the congressman wasn't qualified to give medical advice and that I should call my doctor. So I asked them to stop giving advice about vaccines.

Scott A Berger, MD
@sabergermd

Covid-19	
What We Learned	What They Did
Underlying medical conditions significantly increases risk	Cancel non-covid medical appointments
Age significantly increases risk	Move positive patients into elderly care homes.
Obesity significantly increases risk	Close gyms, indoor and outdoor sport
Vitamin D deficiency significantly increases risk	Lockdown people into their homes
Common anti-viral drug reduce risk	Ban prescribing of common anti-viral drugs
Significant risk when coincides with bacterial infections	Enforce masks, including homemade. Don't promote mask cleaning.
Couldn't kill more people if you tried!	

COVID-19: Democratic Voters Sup x +

rasmussenreports.com/public_content/politics/part...

President Biden's strongest supporters are most likely to endorse the harshest punishments against those who won't get the COVID-19 vaccine. Among voters who have a Very Favorable impression of Biden, 51% are in favor of government putting the unvaccinated in "designated facilities," and 54% favor imposing fines or prison sentences on vaccine critics. By contrast, among voters who have a Very Unfavorable view of Biden, 95% are against "designated facilities" for the unvaccinated and 93% are against criminal punishment for vaccine critics.

Biden Administration Paid Media \$1 Billion for COVID Shot Propaganda

By Liberty Counsel — Bio and Archives—March 7, 2022

[American Politics, News](#) | [CFP Comments](#) | [Reader Friendly](#) | [Subscribe](#) | [Email Us](#)

WASHINGTON, D.C. – The Biden administration paid nearly the entire corporate media, including so-called “conservative” media outlets, with taxpayer dollars to engage in a massive campaign to push only positive coverage about COVID shots while censoring any negative information, without disclosing it to their audiences. This is a serious breach of journalistic ethics.

Congress appropriated \$1 billion in fiscal year 2021 for the secretary of health to spend on activities to “strengthen vaccine confidence in the United States.” Then hundreds of news organizations were paid by the federal government to advertise for the shots as part of a comprehensive media campaign by the U.S. Department of Health and Human Services (HHS). The “COVID-19 Public Education Campaign,” a “national initiative to increase public confidence in and uptake of COVID-19 vaccines,” was created with the goal of having “trusted messengers and influencers” speak to news organizations to “provide factual, timely information and steps people can take to protect themselves, their families, and their communities.”

Emerald Robinson † ✓

Pfizer sues departing employee it says stole COVID-19 vaccine secrets

Jonathan Stempel

Wed, November 24, 2021, 1:20 PM · 2 min read

In this article:

PFE
+6.09% 

By Jonathan Stempel

(Reuters) - Pfizer Inc has sued a longtime employee for allegedly stealing "scores" of confidential documents, including some related to its COVID-19 vaccine, as she prepared to jump to a competitor.

In a complaint filed on Tuesday in San Diego federal court, Pfizer said Chun Xiao Li breached her confidentiality agreement by uploading more than 12,000 files without permission to her personal accounts and devices from her company-issued laptop.

If a company truly puts people's health first and aims to serve the public is it normal for it to be so secretive and sensitive to the point of suing an employee about its covid-19 vaccine information?

Jordan Schachtel @ dossier.subs...

@JordanSchachtel

Pfizer just posted a *profit* of \$7.86 billion in Q1.

That's not revenue. That's PROFIT.

The government is negotiating sweetheart contracts that is making Pfizer execs filthy rich, while forcing their product on the consumer.

It's all one giant criminal racket.

AN HOUR AGO

MAY 13, 2022 / 12:03 PM / UPDATED A MONTH AGO

Fact Check-Bill Gates investment in lab-produced breast milk company is unrelated to baby formula shortage, contrary to posts online

By Reuters Fact Check

Claims that Bill Gates invested in a company working to create lab-produced breast milk company just as the United States experiences a baby formula shortage are misleading. There is no evidence that the years-old investment has anything to do with the current shortage, the motives of which have been documented by Reuters and other media outlets.

This post denies that Bill Gates's investment was related in any way to the baby formula shortage and just coincidence. Is that true or does this denial have other motives?

Alternatives to the covid-19 vaccine

What about medicine as an alternative to big pharma vaccine products?

If our God-given immune system is the #1 factor in getting sick, wouldn't it be prudent to eat healthy and exercise and live a healthy lifestyle rather than rely solely on a product rushed to the market by pharma companies with a history of corruption?

Dr. Harvey Risch: Hydroxychloroquine, Ivermectin, and Other Therapeutics Highly Effective in Early COVID...

Some unapproved COVID-19 treatments may cause serious harm.

Source: World Health Organization

[Get COVID-19 Info](#)

This post shows other covid-19 treatments in a positive light, but Facebook sent a fear message claiming that they may cause “serious harm.” One of the products listed has been used worldwide for more than 60 years and FDA approved and the other has been used more than 40 years, is FDA approved, and won a Nobel prize for its effectiveness.

So, which claim is true? Could the covid-19 vaccines also cause “serious harm” and do they put the same warnings on pro-vaccine messages? If someone has died from the covid-19 vaccine is that enough to trigger a warning or how many people have to die before it meets that threshold? And how many do they believe have died from non-vaccine treatments?

March 23, 2020

VIA EMAIL AND HAND DELIVERY

The Honorable Steve Sisolak, Governor
101 North Carson Street – Suite 1
Carson City, NV 89701

RE: Emergency regulation on prescribing and dispensing chloroquine and hydroxychloroquine during COVID-19 pandemic

Dear Governor Sisolak:

The Nevada State Board of Pharmacy (Board) has determined that an emergency exists due to the hoarding and stockpiling of chloroquine and hydroxychloroquine during the COVID-19 pandemic and the resulting shortage of supplies of these drugs for legitimate medical purposes.

Currently, hydroxychloroquine is under investigation for use in the treatment of COVID-19. At this time, safety and efficacy have not been established.¹

The FDA has been working closely with other government agencies and academic centers that are investigating the use of the drug chloroquine, which is already approved for treating malaria, lupus and rheumatoid arthritis, to determine whether it can be used to treat patients with mild-to-moderate COVID-19 to potentially reduce the duration of symptoms, as well as viral shedding, which can help prevent the spread of disease. Studies are underway to determine the efficacy in using chloroquine to treat COVID-19.²

Therefore, pursuant to NRS 233B.0613, the Board respectfully requests an emergency regulation in Chapter 639 of the Nevada Administrative Code that restricts the prescribing and dispensing of chloroquine and hydroxychloroquine during the COVID-19 outbreak. These restrictions include prohibiting the prescribing and dispensing of chloroquine and hydroxychloroquine for a COVID-19 diagnosis or any new diagnosis made after the effective date of the regulation, and requiring an ICD-10 code and a limit to a 30-day supply for any new prescription for these drugs. The provisions of this emergency regulation do not apply to a chart order for an inpatient in an institutional setting or to an existing course of treatment for a

Pro-Covid-19 Vaccine Propaganda?

▶ ↻ 📌 🔒 fda.gov/vaccines-blood-biologics/safety-availability-biologics/covid...

Summaries of Monitoring Efforts

FDA is conducting intensive monitoring of COVID-19 vaccine safety in the U.S. using a variety of approaches. Based on available information, FDA strongly believes that the known and potential benefits of COVID-19 vaccination greatly outweigh the known and potential risks of COVID-19. As part of our efforts to be transparent about our COVID-19 vaccine safety monitoring activities, FDA is posting summaries of the key safety monitoring findings on this page.

- [Initial Results of Near Real-Time Safety Monitoring of COVID-19 Vaccines in Persons Aged 65 Years and Older – July 9, 2021](#)

This FDA message is admitting the covid-19 vaccine has “known and potential risks” though. So, what are they? Is myocarditis and death one of them? If this is true why isn't the public informed according to informed consent ethics? Why are they surprisingly quiet about communicating the real health risks. If this was any other product wouldn't this concealment normally raise red flags?

But this product is being pushed onto millions and big pharma is making record billions in profits over this unique opportunity. Congress people who invested heavy into big pharma in the beginning of the pandemic are richer than ever. Should this raise any ethical concerns about putting potential profits above public health?

“CDC: 4,178 Americans DEAD after experimental COVID shots”) leads readers to believe this finding was confirmed and released by the CDC.

Reuters explored this lack of causality in other fact check articles visible [here](#) and [here](#) .

Reuters addressed false claims that the vaccines were “experimental” and had not been tested prior to the FDA’s authorization, [here](#) .

VERDICT

Missing context. There is no evidence that the deaths reported to VAERS after receiving the COVID-19 vaccine are caused by the vaccine. Healthcare providers are required to report any death after vaccination to VAERS.

This article was produced by the Reuters Fact Check team. Read more about our fact-checking work [here](#) .

JUST IN: Congresswoman Maxine Waters says she has tested positive for COVID: "I am grateful to be fully vaccinated and to have received two booster shots."

2:05 PM · Apr 27, 2022 · Twitter Web App

Barack Obama ✓
@BarackObama

I just tested positive for COVID. I've had a scratchy throat for a couple days, but am feeling fine otherwise. Michelle and I are grateful to be vaccinated and boosted, and she has tested negative.

It's a reminder to get vaccinated if you haven't already, even as cases go down.

2:35 PM · Mar 13, 2022

Vice President Kamala Harris ✓
@VP

United States government official

Today I tested positive for COVID-19. I have no symptoms, and I will continue to isolate and follow CDC guidelines. I'm grateful to be both vaccinated and boosted.

1:50 PM · Apr 26, 2022 · Twitter Web App

Bethany Cherisse

@BethanyCherisse

Seeing the triple jabbed come down with covid and immediately jump online to inform the world how grateful they are for their boosters because they are 'certain' it could have been 'so much worse' is quite frankly the most amazing display of human stupidity I have ever witnessed.

This covid-19 vaccine page on the CDC website shows a white doctor giving a black girl a lollipop while claiming that the vaccines are recommended for children age 5 – 11. This is despite them having practically zero risk from covid-19 and no one ever dying from it. Why is this such a high priority of the CDC to make a web page on this and push an experimental product known for adverse effects onto young children?

New poll shows Americans who trust conservative media outlets more likely to believe COVID-19 misinformation

Christopher Wilson · Senior Writer

Tue, November 9, 2021, 8:57 AM · 3 min read

COVID-19 UPDATES  [View latest news](#)

A new poll has found that Americans who consume more right-wing media are far more likely to believe misinformation about COVID-19 and the vaccine against it.

In a [survey released Monday by the Kaiser Family Foundation](#), respondents were asked about eight different misconceptions about the pandemic, ranging from “The government is exaggerating the number of COVID-19 deaths” to “The COVID-19 vaccines can change your DNA.” The survey found that 78 percent of Americans either believe or aren’t sure about at least one of the statements. However, the numbers varied greatly depending on party affiliation, vaccination status and source of news.

Is this true, or is this a political opponent trying to discredit their opponents? Do they believe that no one ever has been injured from the covid-19 vaccine products and should not ask any questions about it?

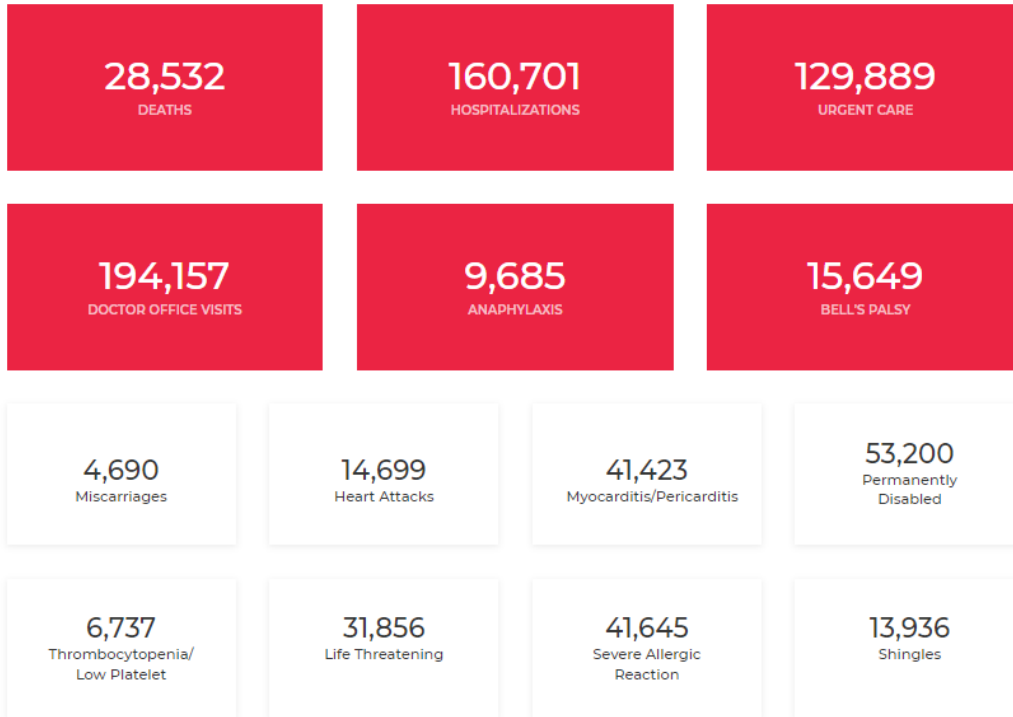

VAERS Reports

VAERS COVID Vaccine Adverse Event Reports

Reports from the Vaccine Adverse Events Reporting System. Our default data reflects all VAERS data including the "nondomestic" reports.

All VAERS COVID Reports US/Territories/Unknown

1,287,593 Reports
Through May 27, 2022

According to VAERS which is the CDC's official vaccine adverse effects reporting system, more than 1.2 million injuries have been reported by the covid-19 vaccine just in the US. This includes 28,532 deaths which is far more deadly than all mass shootings and disasters in US history combined. It is also nearly 10 times more deadly than the 9/11 attacks. Some believe these astonishing numbers are grossly underreported as well and could be multiples higher than what is currently reported. This is believed, because historically VAERS has always underreported its stats because it's elective and not mandatory to file the reports. Some health professionals complain that it takes too long and they don't necessarily have time to file these reports in the database, including deaths from the covid-19 vaccine.

The following death reports are a small sample from VAERS of young children dying after taking the covid-19 vaccine. These young children had practically zero risk of covid-19, but are now dead from what was assumed to be preventative measure.

ONSET: 13 days AGE: 7 SEX: M

Patient presented to Emergency Department (ED) lethargic and listless. He proceeded to a shock state and had a cardiac arrest. He was not able to be resuscitated and died in the ED.

VACCINE NAME(S): COVID19 (COVID19 (PFIZER-BIONTECH))

VAERS ID: 2109625 •

ONSET: 8 days AGE: 8 SEX: M

8yo previously healthy boy. Mom had COVID around 1/5/22. As far as we know the boy did not have symptomatic covid during or after her illness. He was not seen in the clinic for covid, nor was his 12 yo brother. There was no communication with them about this other than mom called to reschedule their appt for the 2nd COVID vaccine on 1/5 b/c she herself had covid. Both of the boys got the 2nd dose of Pfizer Covid vaccine at our clinic on 2/3/22.

Sometime during the night on Thursday night 2/10/2022 (40 hours or so after their phone call) one of the parents found him blue and lifeless in his bed. (Do not know details of what made them go check on him). Was taken to the Hospital with a full code in process. They were able to get a pulse back a few times for a brief time, but then lost him in the ICU.

VACCINE NAME(S): COVID19 (COVID19 (PFIZER-BIONTECH))

VAERS ID: 1975356

AGE: 7 | SEX: F | State: MN

VAX DATE: 28 November 2021 | ONSET DATE: 09 December 2021 | DAYS TO ONSET: 11

Patient developed fever on 12/9/2021, with mild cough and congestion. Was treated at home with acetaminophen at approximately 12:30 pm, ibuprofen at 7:30 pm. Entire family was sick with similar symptoms. 2 siblings were positive for influenza and strep, Patient was not tested for either of those. 12/9 had a COVID pcr test done - negative. On 12/10/21 mom went to check on her in the morning at 9:15, found patient n bed, not breathing, unresponsive. Attempted CPR with no response. Final autopsy report pending.

VACCINE NAME(S): COVID19 (COVID19 (PFIZER-BIONTECH))

VAERS ID: 2183424 •

AGE: 7 SEX: F

Death; This is a spontaneous report received from a contactable Other HCP from Regulatory Authority. Regulatory number: PH-PHFDA-300137859. A 7-year-old female patient received BNT162B2 (COMIRNATY), intramuscular, administration date 15Feb2022 (Lot number: FR8392) at the age of 7

years as dose number unknown, single for COVID-19 immunisation. The patient's relevant medical history and concomitant medications were not reported. The following information was reported: DEATH (death), outcome "fatal", described as "Death". The date and the cause of death were unknown.

It was not reported if an autopsy was performed. No follow-up attempts are possible. No further information is expected.; Reported Cause(s) of Death: Death

(Death was same day of covid-19 vaccination)

VACCINE NAME(S): COVID19 (COVID19 (PFIZER-BIONTECH))

VAERS ID: 2190544 •

These are not unknown "side effects". This has always been known. This is why mRNA vaccines have NEVER been used on any species, animal, plant, mammal, or reptile. EVER.

All the animals died in the second wave of infection due to ADE/pathogenic priming. And the ones that weren't exposed were spitting out broken/misfolded proteins because their cells were in overdrive. Which then led to snapped proteins. Which is a prion. The prions are equivalent to shards of glass ripping through every cell in your soft tissue. Similar to Kuru. Exactly like Creutzfeldt-Jakob. Also infectious through inhalation. So it's a triple whammy for you and everyone around you (because the 'vaccine' doesn't protect you [redacted]) [redacted]

Comment: "I've been wondering if there was a nefarious motivation behind the V@x. If I were an sociopathic oligarch and thought mankind needed to be reduced massively to protect the earth, would I use the vax to cause a mass die off, or would I cause mass sterilization? While either approach would cause huge turmoil, the mass sterilization might cause the least disruption."

Response: First, according to the usual definition of "vaccine", the current injections are not "vaccines". They are just another strain of dangerous technology that the parasitic overclass is funding and using for the purpose of global domination and control.

A mass human die-off would be traumatic and threaten the status quo. If the human population crashes and the economy follows suit, the elite will have nothing, no innate superiority or adaptivity, that might protect them and conduce to their survival. Hence, they prefer mass sterilization and a slower (but still rapid) population decline.

Obviously, the parasitic overclass is worried that its environment is being destroyed by human overpopulation. Unfortunately, it's right about that - whereas the Earth and its resources are finite, population growth is exponential. But there are at least three major problems with their approach.

(1) Instead of addressing population control the right way, by upgrading the population through education and genetic hygiene, appealing to what is best in the human species, and convincing it to control its own reproductive behavior for its own good and that of the Earth, they prefer to lie and sneak around behind everyone else's back, conning and threatening us into "vaccination" on false pretenses. Hence, their conspicuous neglect of Logos. Instead of upgrading humankind, they are degrading it, relying on a combination of public ignorance, misplaced trust, and dead-end ideas and ideologies like atheism, materialism, communism, multiculturalism and forced ethnic "diversification", and tyrannical "global governance" to snooker humanity into compliance.

(2) While the global elite desperately want total control of the planet including its human population, they are neither intelligent nor morally good enough to deserve it, and have no idea how to properly use it to the advantage of the human species and the planet as a whole.

(3) This is reflected in the fact that their control agenda is limited to quantity control and totally excludes quality control. They assume that all the true genetic wealth of mankind resides in themselves despite their conspicuous lack of merit (genius, moral rectitude). Subscribing to an outworn idea called "Social Darwinism", they simply assume that everyone else, no matter how much better and how much smarter one may be, is inferior and expendable and should be either culled or sterilized, or downbred, deracinated, and melted into a vast mocha-colored slave race for elite convenience.

In short, by virtue of stuffing their pockets and pushing everyone else around, the elite consider themselves a "Master Race", a kind of global livestock breeding association to which the rest of the species is nothing but a herd of docile cattle to be bred for servility and barely enough intelligence to follow orders. This has been clearly and irrefutably documented by, e.g., the "White genocide" agenda described a century ago by R.N. Coudenhove-Kalergi, originally funded by the Rothschilds, Warburgs, and other international banksters and now pursued as international policy throughout the Western World.

It's easy to see where this leads, and it's nowhere good. Personally, I'm willing if necessary to do severe physical harm to anyone attempting to force one of these injections on me, and the same should be true of any other decent self-respecting person.

This is from the man with the world's highest IQ estimated to be 200.

We hope you have benefitted from the information presented about the covid-19 vaccine products from big pharma.

Truth isn't afraid of questions; lies are. Lies like to hide and feels threatened; truth is totally ok being exposed. Is the information about the covid-19 vaccines being hidden or is everything fully disclosed and offered to the public?

It is ok to ask questions and follow the money. It is ok to question the motives of the various articles and statements presented to the public. A historically corrupt pharmaceutical industry stands to benefit itself hugely through government programs like the CARES ACT as do congress people. When such an enormous amount of money is at stake and when all normal safety protocols are circumvented, it seems prudent to research and ask questions before getting injected with unnatural experimental products. Strangely, the loudest voices in the media and politicians have ignored the most obvious thing to strengthen people's immune systems, which is eating healthy and exercising.

The loudest voices have also made inconsistent and contradictory and anti-science recommendations regarding masks, lockdowns, and other factors. So, when someone considers the mass scale of misinformation coming from such sources, one realizes they cannot be trusted.

Believe it or not, there are even paid articles by certain political groups aimed at "discrediting" documents like this. They will call it "disinformation." But how do they know they aren't the ones pushing disinformation? Why would asking questions be bad?

May we all seek and discover the truth about the covid-19 vaccines. For any parties guilty of lying and deceiving others for their own gain- may they be caught and exposed and held accountable to the law.
